Creating Waves for the Future

INTRODUCTION

Tech Wave is a leading web development company that has established itself as a prominent player in the digital landscape. With a strong focus on creating stunning and functional websites, Tech Wave has become a trusted partner for businesses and individuals seeking to make their online presence felt.

Every website project undertaken by Tech Wave is approached with a deep understanding of the client's unique needs and objectives. Whether it's a small business looking for a basic web presence or a large corporation in need of a complex e-commerce platform, Tech Wave has the expertise to deliver.

Client satisfaction is at the core of Tech Wave's values. The company maintains a client-centric approach, where open communication and collaboration are key. Throughout the development process, clients are kept informed and involved, ensuring that the final product aligns perfectly with their vision.

With a dedicated team, a commitment to staying current with industry trends, and a focus on client satisfaction, Tech Wave is well-positioned to continue making waves in the world of web development. If you're looking to bring your online ideas to life, Tech Wave is a name you can trust.

Creating Waves for the Future

Figure 1.1

Figure 1.1 is the official company logo, branding, and tagline. The logo consists of a wave, to further imply the company's objective, and a circuit-board diagram, to imply the technological aspect behind it.

'Creating Waves for the Future' is the tagline of the company. It gives meaning to creating and/or providing IT services for the future of the company's clients.

DATE CREATED AND FOUNDERS

The company was founded on September 20, 2023, by Mr. Justine Leung Furugganan, and Mr. Carlloyd Viray. Both of which are undergraduates of the Bachelor of Science in Information Technology in Pangasinan State University Urdaneta Campus.

POLICIES

Tech Wave permits the Clients to provide all supplies and data needed by us to perform the service in compliance with any specified requirements. These materials could consist of, but not be limited to, pictures, text, logos, and other printed items.

Tech Wave also assumes that our clients have secured all required authorizations from the rightful proprietors to utilize any photos, graphics, papers, and other resources for inclusion in this project. Any claim or lawsuit resulting from the usage of these materials is off limits to Tech Wave.

Any necessary costs that exceed the scope of our initial estimate must be paid back by you to Tech Wave. These costs may include things like templates, third-party software, additional third-party resources, or other charges that are not expressly included in the project budget that has been agreed upon. If such expenses arise throughout the course of our partnership, we will present you with a thorough summary of these extra costs for your permission prior to making any purchases or hiring any services. The smooth progress of the project will depend on your early recognition and approval of these costs

Tech Wave is pleased to offer you the opportunity to make revisions to the website design. However, we retain the right to limit the number of design proposals to a reasonable amount and may charge for additional designs if you request changes to the original design specification.

Tech Wave specializes in designing websites for clients and is committed to delivering high-quality digital solutions. This policy outlines our understanding and terms of engagement for your project.
